Agents wanted in every town

A large line of Oil Cloth and Curtains, of new patterns; call and see them, at KELLEY & BROWN'S.

Miscellaneous.

THE LECTURE SEASON.

MR. EDITOR:—Are we to have no scientific and literary lectures in Massillon this fall and winter? When other towns are moving in that direction, why should not Massillon move also? We have theatres enough—concerts enough, and shows of all kinds in abundance, usually attended with crowded houses. But how many lectures of solid and useful information have we heard during the past and previous years? Man cannot live by fun alone, any more than he can live by bread alone. Innocent amusement, such as cheers the spirits, invigorates the health, and whets the appetite for more substantial food, is a very proper thing. But there is a lower class of amusements, usually designated as fun, which, like whisky, only sharpens the appetite for more of the same sort. Unfortunately we have too much of the latter class and too little of the former. Laughter is an excellent thing in its place, but it is not all that is necessary to develop us into proper men and women. There is something nobler in this world than mere fun—something more elevating, refining and joyous Aside from that peace and happiness which arises from the cultivation of the religious and moral nature there is an intellectual joy, which they can never know, who dwell in the atmosphere of what is vulgarly called fun. Literature and science are replete with wonders and marvels, and joys, which are forever hidden from those who do not seek for them as for lost treasure, to inspire the masses with the same eagerness for intellectual culture and pleasure, which they now manifest for fun Let us have a course of lectures, rendered as attractive and instructive as possible by every device within our reach. Let us have the instruction of history and essay, sparkling with the brilliancy of wit and humor. Give us the beauties of philosophy—the wonders of chemistry—the splendors of optics, and sublimity of astronomy, all brought down to the common comprehension, in order that the soul may be lifted up from nature to nature's God. Who will move in the matter?

CITIZEN.

THE DUMMY.

A Remarkable Scene in Virginia.

We find the following in a Richmond (Va.) paper: In Governor Wells' great speech at Petersburgh after commenting on Mayor Kelley's endorsement of the kuklux organization, he read the following extract from the Mayor's speech made at Petersburgh on Wednesday night—

"The dummy who drives his horse along the Jersey beach!"

I know, said the governor, Mayor Kelley is an accomplished scholar, a gentleman noted for his refinement and culture, ordinarily courteous and polite. I am surprised that he, of all other men, the chief magistrate of the queenly city of Richmond, who knows so well what decent respect requires, should have been betrayed into the use of such grossly improper language, but as he asked the question I answer:

Who was the matchless hero of Donelson, Shiloh and Vicksburg?

"The dummy who drives his horse along the Jersey beach!"

Who was it that led 100,000 heroes to victory over Lee and his before unconquered army from the Rapidan to the Wilderness—to the James, to Petersburgh, to Richmond and the old apple tree at Appomattox?

"It was the dummy who drives his horse along the Jersey beach!"

Who was it that planned, that flanked, that fought, that shelled, that charged at Fort Steadman; at Fort Hell and at Fort Damnation?

"It was the dummy driving his horse along the Jersey beach!"

Who was it that seized the tiger of secession by the throat, and, holding him there, said to those who caviled, to those who hoped, and those who feared, "I'll fight it out on this line if it takes all summer?"

"It was the dummy driving his horse along the Jersey beach!"

Who was it, after the victory was won and the Union safe, said to Lee and the conquered army whose courage he honored and respected, "Return to your homes and you shall not be disturbed by the United States authorities so long as you observe the parole and obey the laws of the place where you reside?

"It was the dummy driving his horse along the Jersey beach!"

Who said to Lee, "Let the men in your army who own the horses in their charge take them home with them, for they will need them for their spring plowing and other farm work?"

"It was the dummy driving his horse along the Jersey beach!"

Who was it when Lee, Wise and other Confederate generals were indicted by a Virginia Grand Jury said, "The officers and men paroled at Appomattox cannot be tried for treason—good faith as well as true policy dictates that we should observe the condition of that convention?"

"It was the dummy driving his horse along the Jersey beach!"

Who was it that said "Six years having elapsed since the last gun was fired, is it not time that the disabilities imposed by the fifteenth amendment should be removed?"

"It was the dummy driving his horse along the Jersey beach!"

Who was it restored Virginia and reclad her in her full, bright shining garb of a sovereign state, and now calm and serene, unangered, patient and faithful, dares, unmindful of the threats, the abuse and the lying slanders heaped upon him, to do his duty alike to friend and foe, to God, his country and himself?

"It is the dummy driving his horse along the Jersey beach!"

Who is it that will live in the hearts of his countrymen—revered at home and abroad, the great soldier, the modest citizen, and the faithful public servant, unostentatious, unassuming, brave without ambition, forbearing, resolute in doing what he deems right, but never offensive in asserting himself as a soldier, general or chief—for a thousand years after his poor detractors have gone down to a forgotten grave?

It is the dummy driving his horse along the Jersey beach!"

No words can give any adequate description of the dramatic effect and tremendous power of the reply. The voice of the speaker was clear as a bell: and was heard by every man of the 3,000 present, and might have been heard by 20,000. As often as he commenced the refrain, "It is the dummy," the audience cheered, shouted, laughed and wept alternately. Such an effect has rarely ever been produced on a mass of people. It seemed an inspiration. The effect of that meeting will never be forgotten.

SHOW THYSELF A MAN.

Now, there are two courses, either of which you can take. One is to say: "I am not living nor dressing so well as my companions, and I must have fine clothes and better fare." The other is to say with stern manlines: "I have come here to make my way; and honesty and simplicity require that I should not live any higher than I myself can earn the means of living. I will be no man's pauper or beneficiary I will make what I take; and what I make and take shall support me.

The discipline which you get from the latter course of self-denial is better than going to college. Many a man cradled in learning gets no discipline, but a young man who, having been reared and trained in self indulgence, leaves his father's house and comes to the city and says: "I will be beholden to no man. I can afford to live as plain as any man, both in regard to diet and clothes, if it is necessary to my manhood, and I will not have anything I cannot fairly earn. I will be independent and establish myself." Such a young man gets discipline which is worth a university education. By forming that purpose and adhering to it, he is educating himself in the very elements of manhood. He is making a man of himself.

Do you suppose men think less of you because you dress plainly? Fools may, but men do not. Do you think your chances of life are less because you feel ashamed to show a man where your room is, and where you sleep? Why, many a man has slept in a barn who was better than many another who slept in mansions and palaces. A man ought not to be ashamed to say, "I am poor, and cannot do so." It is the curse of America, since there are no orders of nobility here, that men are ashamed to admit they are poor. The young man defends himself and says: "I am not so poor as you take me to be." Even some sensible people yield to the temptation of the devil, and are ashamed to acknowledge that they work.

WORDS TO THINK OF.

Work is no dishonor, and laziness is no credit to any one. It is good to have good wages; but half pay is better than nothing, and working for nothing is better than idleness and vice. There is no true manhood without independence. He whose individuality is swallowed up by fashion, folly, or society, has lost that which he may never regain, and without which his life must be a vain one. He who restrains himself from luxury may help others in necessity. He who helps others may look to God to help him. Difficulties are placed in our way that we may overcome them, and pass through conflicts to victories, through victories to triumphs. Pride goes before destruction; but honor, and nobleness, and independence of soul, are approved of God, and are profitable to man.

We sometimes run about a whole day seeking what we have unwittingly left at home. So we often throw aside content, but presently having occasion for it again, we search for it everywhere but in the right place.

WOMAN ITEMS.

Miss Jewett, daughter of the clerk in the treasury department at Washington, has recently made her debut at the Fifth Avenue Theatre, New York. Her mother is an author, having written "From Fourteen to Fourscore" and "The Old Corner Cupbord." Miss Jewett is said to have talent for her chosen profession, and to be refined and intelligent.

A young girl pupil of the Presbyterian Mission Schools in Cairo, Egypt, was married eight years ago, to a Maharajah, named Dhuleep Singa, who ever since, upon his anniversary, presents the institution a check of $500 as a token of respect and gratitude.

Madame Dejazet, the clever French actress, though in her seventy-fifty year, nightly attracts crowded audiences in Paris and the provincial towns, and is said to be as easy, graceful and youthful in appearance as a woman of thirty. It is whispered that a bevy of whilom belles from this side of the Atlantic are going to send deputies to her, charged to discover the particular Fountain of Youth to which she owes the perpetuity of her charms.

Type setting is fast becoming a favorite employment with women, notwithstanding the many objections rais against it, when adopted. Those who are preparing themselves for the profession of journalism make its study a speciality. A daughter of Governor Birney is learning the art, preparatory to entering upon an editorial career in the south.

A leading London weekly has engaged Miss Snead as a Washington correspondent for the approaching season. Beneath her signature of 'Miss Grundy' she is well known in metropolitan literary circles as a bright, piquant and entertaining writer.

Several belles of the fashionable world whose days of glory are past and gone, are finding solace in the bosom of the Catholic church and the austerity of convent life. Among them are the Princess Salem-Sam, well known for her devotion to "poor Carlotta" She is an American, and a convert from Protestantism, and is said to have been at one time the leading lady equestrienne of a traveling circus. Her maiden name was Agnes LeClercef. In Mexico she saved her husband's life, and through her influence he was restored to his military rank in Germany. He was killed at Gravelotte at the head of his regiment, and in a few weeks' time his widow took the veil at a convent in Tyrol. The widowed countess de Macrolly, once a leading Parisian belle and a reigning beauty, whose husband fell in the Franco-Prussian war, took the veil of a Sister of Charity, recently.

The king of the Belgians evidently believes there's beauty in a long sounding name, and hence had his infant daughter christened Clementine-Alberta-Marie Leopoldine.

Some benevolent ladies of Hartford, Conn., have opened a day nursery for the infants and young children of working women, who earn a livelihood by working away from their homes during the day. The little ones are received at six in the morning and kept until seven at night. Five cents a day is the charge for the care bestowed and the meals supplied.

A FORTUNE MADE BY A HAT.

We have all heard of the lad who stooped to pick up a pin as he was sadly leaving the presence of the rich banker of whom he had asked for employment in vain, and was thereupon recalled, given a stool in the office, afterwards taken into partnership, and died immensely rich. It may be true as many fortunes have turned upon as slight points as that. The other day Herr Muhl died at Colmar—late of France, but now of Germany—twice over a millionaire, who owed all his fortune to his hat. He had been apprenticed to a turner, and, in the course of his Wanderjahr, or traveling-year of the German journeymen, he found himself in Colmar, and applied to Messrs. Well & Bouton—who had a great machine-shop—for work. The ragged and barefoot boy, with his knapsack on his back, did not commend himself to his masters, and he was told to go about his business. As he was going, the master-machinest called after him, "I say, man, what kind of a hat is that you have on?" "A wooden one, sir." "A wooden one! And where did you get it?" "I made it, sir." "How?" "With my lathe. I had a long way to go, and needed a hat to keep out the rain, and, as I had no money to buy one, I made this out of wood." "But this is oval, and an oval form cannot be made with a lathe." "That is true, sir: but, nevertheless, I did it. I took my central point, and worked away till I made my hat." The keen-sighted turner at once engaged him, and found him to be a mechanical genius as well as a good workman. He became a partner, and afterward sole proprietor, under the Gallicized name of M. Moulin, and died the richest man of the whole countryside.

True felicity of life is to be free from perturbations, to understand our duties toward God and man, to enjoy the present without any anxious dependence upon the future, not to amuse ourselves with either hopes and fears, but to rest satisfied with what we have, which is abundantly sufficient; for he that is so, wants nothing.

CHEMICAL PAPERS.

A new style of paper has been recently introduced, designed to be used for checks, drafts, and other commercial purposes. Such is the preparation of this paper that figures once made upon it cannot be erased or chemically removed without leaving a mark that would lead to immediate detection. In the samples of this paper that have been shown, an admirable degree of perfection has been obtained and the invention or discovery promises to become very popular The preparation of this paper is extremely simple, and it is a matter of surprise that it was not discovered years ago. The coloring material used is simply dilute writing fluid, which gives the paper a delicate French gray shade. Characters written with a pen on this cannot be removed in any manner. If scratching is resorted to, the surface will be removed and the white body of the paper underneath would show the attempt The coloring matter of the surface being the same as the ink used in writing upon it, any chemical preparation that would remove one would the other, and thus any attempted alteration would be discovered. The process it would appear, is designed to furnish an article for checks and valuable documents that will be absolutely proof against alteration. If this result is obtained the paper will undoubtedly come into general use, as it will be much more convenient and satisfactory than the variety of stamps and punches that are now used to secure the same result The machines used to cut out or impress the figures upon the check, at best disfigure it, and a prepared paper that would be equally safe would undoubtedly take their place.

BILLINGS ON BED BUGS

The bed bug is a cosmopolitan cuss.

He is common tew all countrys that thaw out.

Greenland is the only country whare they are considered a luxury.

Everything that iz hard tew get and eazy to looze, is a luxury.

The bed bug iz built in a circle, and hiz mouth reaches klear around the edge ov hiz boddy.

This enables them tew bite their food just as well in one place as an other without turning around.

The bed bug is a very eazy animal to cultivate, in fakt, if you will only give them house rent free, they will cultivate themselves.

Two bed bugs will produce in one year four thousand 3 hundred and 2 bed bugs, besides laying 12 hundred and 36 eggs for next year's krop.

For a large yield and quick return, there ain't no stock investment that kan beat bed bugs.

The only trouble iz that there is so many folks in the bizziness now that the supply haz killed the demand.

A healthy competishun iz the soul ov trade, but mankind, when they see their phellow kritter doing well in any enterprise, ain't happy until they rush into the same bizziness.

The Springfield Republican says the Connecticut River railroad company is about introducing, for trial, a set of paper car wheels under the forward truck of its engines. These wheels have been known to car builders for some time, but the demand for them has been moderate on account of their cost, notwithstanding the universally admitfact that they are safe and easy going. The wheels are manufactured by bringing a pressure of 350 tons upon sheets of common straw paper, which forces them into a compact mass, which is then turned perfectly round and the hub forced into a hole in the center. this requiring a pressure of 25 tons' weight. The tire is of steel and has a one quarter inch bevel upon its inner edge, thus allowing the paper filling to be forced in, 250 tons pressure being required in the process. Two iron plates, one upon each side of the paper, are bolted together, which prevents the possibility of the fillings coming out. The tire rests upon the paper only and partakes of its elasticity in consequence. Although these wheels are much more expensive than those in common use, the patentee claims that they wear longer, injure the track less and run with less noise than wheels of any other pattern.

EATING WITHOUT AN APPETITE.—It is wrong to eat without an appetite, for it shows that there is no gastric juice in the stomach, and that nature does not need food, and, not needing it, there being no fluid to act upon it, it remains there only to putrify, the very thought of which should be sufficient to deter any person from eating without an appetite, it is a mistaken course, for the only result is to cause one to eat more, when already an amount has been eaten beyond what the gastric juice is able to prepare. The object to be obtained is a larger supply of gastric juice, not a larger supply of food, and whatever fails to accomplish that object fails to have any efficiency toward the cure of dyspeptic diseases. The formation of the gastric juices is directly proportioned to the wear and tear of the system, which is to be the means of supplying this wear and tear, and this wear and tear can only take place as the result of exercise. The efficient remedy for dyspepsia is work—out door work beneficial and successful in direct proportion as it is agreeable, interesting, and profitable.—*Hall's Journal of Health.*

BEN WADE ON "RECONCILIATION."

In his resent speech at Xenia, Hon. B. F. Wade said:

Mr. Greeley has been howling over the assembling of our soldiers at Pittsburg, whose courage and bravery saved the country, and who met to commemorate their victories and talk them over. Greeley thinks it the worst thing possible. Why, asks he, should you remind these men the rebels that you once conquered them? For one, I hope to God that they never will forget that. [Applause.]

Mr. Sumner says in his last speech that we should obliterate everything of the kind. He says that Gen. Grant is a standing protest against them. He was the military chief under whom they were conquered, and his occupying the chair as chief Magistrate must wring the hearts and hurt the feelings of these rebels. Don't you think we should share their feelings? [Laughter.] Why not tear down the monuments that we have erected over our fallen dead? Why not desecrate every cemetery for fear some rebel may come along and see a monument over a Union soldier? His feelings may be hurt, for his countrymen were conquered by just such fellows. [Cheers and laughter.] But, better than all, bury your flag: bury every emblem of nationality, because it will remind these rebels that they once made an unsuccessful attempt to trample it under foot.

What Mr. Greeley said was an eternal insult to these patriotic men, and I don't think he is going to get many votes from them. [Cries of "No."] These men that so patriotically turned out in defense of the Union, went into the field and suffered all the hardships of the war, many of them maimed and wounded for life, and came up to commemorate their achievements, and they are insulted by the man that bailed Jeff Davis. Are you going to vote for such a man as that? ["No, no," and cheers.]

DON'T BE AFRAID OF DIRT.

Old Dr. Cooper, of South Carolina, used to say to his students: "Don't be afraid of dirt, young gentlemen. What is dirt? Why, nothing at all offensive, when chemically viewed. Rub a little alkali upon the dirty grease spot on your coat, and it undergoes a chemical change and becomes soap; now rub it with a little water and it disappears. It is neither grease, soap, water nor dirt. That is not a very odorous pile of dirt you see yonder; well, scatter a little gypsum over it and it is no longer dirty. Everything like dirt is worthy of our notice as students of chemistry. Analyze it; it will separate into very clean elements. Dirt makes corn, corn makes bread and meat, and that makes a very sweet young lady, that I saw one of you kissing last night. So after all you were kissing dirt, particularly if she whitened her face with chalk or fuller earth; though I may say that rubbing such stuff upon a beautiful skin of a young lady is a dirty practice. Pearl powder, I think, is made of bismuth, nothing but dirt. Lord Palmerston's fine definition of dirt is 'matter in the wrong place.' Put it in the right place and we cease to think of it as dirt."

DONE FOR.

At a western eating house, the other evening, a young and fully moustached dandy was seated at the table at a rather late hour, when the waiter, according to custom, when the work of the day was over, came in and took a seat directly opposite. The dandy tipped back in his chair, and gazing at the waiter, exclaimed:

"Fellah, do you servants mix with the gentlemen in this house?"

"No, sir," was the reply.

"Are you not the waiter?"

"Yes, sir."

"Well, a waiter is as much a servant as the scullery maid."

"True," replied the waiter, "but I did not enter the room until I had looked in, and saw that there was not a gentleman at the table!"

Here the conversation ended. Moustache was done for.

A fashionably dressed lady entered a car on the Hudson River Railroad, a few days ago, and after she had stood for some minutes, a young gentleman arose and gave her his seat. She made no acknowledgment of this act of courtesy. The cars stopped at an upper station on the river, and the lady was about to leave the cars, when a quaint old gentleman called to her:

"Madam you have forgotten something."

"What, sir?" said the lady.

"Why, you have forgotten to thank that young gentleman for your seat;"

The lady walked out and the young man resumed his sitting.

It has only recently been discovered that in the district of the river Amoor, Russia possesses a gold field, which explorers of those parts are inclined to think the richest in the world. Gold washing and gold digging is going on in the tributaries of the Russo Chinese frontier streams and their valleys, and repays the persons engaged in it so abundantly that laborers earn from fifty to one hundred roubles in silver per day. To make these treasures available for western enterprise, a company has been started at St Petersburg, working partly with English capital, to navigate the Amoor by a regular steam service.

The annual meeting of the Ohio association of the new church was in session at Urbana last week. Two new societies were admitted to the association—Wyoming and Toledo.

A cotemporary speaks of "a man with one eye named Robert Welch," but he does not tell what his other eye was named.

NEWSPAPERARCHIVE®

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, October 16.

REPUBLICAN TICKET.

President .....ULYSSUS S. GRANT.
Vice President.....HENRY WILSON.

Elections in seven of the states indicate that the republicans have been making gains in congress, as the following figures show.

	42d con.		43d con	
	R.	D.	R.	D.
Indiana,	6	5	9	4
Maine,	5	0	5	0
Nebraska,	1	0	1	0
North Carolina,	2	5	3	5
Ohio,	14	5	13	7
Pennsylvania,	11	13	20	7
West Virginia,	1	2	0	3
Totals,	40	30	51	26

In the 42d congress the republicans had a majority of ten in these seven states, now they have increased that majority to twenty-five. Months ago the Tribune suggested, and the Cincinnati and Baltimore platform agreed thereto, that the tariff question be subordinated—taken out of the national issue and left to the people to be decided in electing congressmen. This tidal wave looks as if the people did act on the Tribune's hint.

Offices are not always to be bought. They may sometimes be purchased from those who have the dispensing of them, but when the people are called on to decide such questions, attempting office buyers are not universally a success. In the 10th Ohio district a Judge Sloan, one of the railroad kings, is charged with trying to buy his way into congress, but was signally defeated by Mr. Foster. In the 6th (Toledo) district another big railroad magnate, Mr. Hurd, tried the same game, but was well beaten by Mr. Sherwood. In the 20th (Cleveland) district Mr. Chamberlain, a railroad millionaire is charged with trying to buy his way into congress with $50,000, but was beaten by Mr. Parsons, whose majority is some 2,800. In the 17th, our own district, Mr. R. Brown is accused with parting from $25,000 to purchase a place in congress, but has been beaten some 2,500 votes. Thus it is seen that there are four cases, in our part of the state, in which facts strongly indicate that certain men endeavored to buy their way into the councils of the nation, to which the people said No by an aggregate majority of some 10,000. This is a significant sign of the times, when purchasing presses, preachers and groogshops are the order of the day to secure political power, is so earnestly rebuked that in every case the effect was decided against by the final tribunal the people, by thousands of a majority.

That terrible fire that devastated so much of Chicago, that began on the 9th of October, 1871, and which destroyed some $300,000,000 worth of property, is yet vividly remembered by the people of that city. The 9th first was signalized by appropriate observances by the citizens. Much of the stricken part of the place is built over again with more substantial edifices than ever, and in a very few years all the wasted places will be adorned with better and safer houses than before. Chicago is blessed with an enterprising people, who are not to be deterred by war or fire.

Mrs. M. M. Brown, editor of the Alliance Monitor, attended the meeting of the Grand Lodge of Good Templars, for Ohio, which convened at Portsmouth on the 3d inst., gives a brief account of the session. It was successful and harmonious, and attended by many of the faithful friends of this reform. We find few particulars of the proceedings, and among these the most notable is the choice of officers. N. E. Denning of Cincinnati, as elected G. W.; Mrs. M M. Brown, of Alliance; G. W. C.; E. J. Pinney, of Ashtabula, G. W. S.; H. J. Topky, T. Bro. Spencer, who has so ably filled the position of scribe for many years, in consequence of his many pressing duties, refused to be a candidate for re election. H. J. Topky, A. V. Spencer and Mrs. Brown were elected delegates to attend the R. W. G. L., which meets at London, England, in May next.

About this season of the year the lakes and seas are visited by severe storms. It is estimated that many millions worth of property and vast number of lives have been saved by by the daily weather reports. The government will do well to keep this system in active operation. The people, especially the seafaring classes, highly appreciate these daily bulletins, and venture from the shore only when they are assured, as they now can be, that it will be safe to do so.

Within a few days news has been circulated throughout the country of the death of two eminent men and a distinguished women. Peter Cartwright, for more than half a century, a prominent preacher in the M. E. church, died at his residence in Kentucky, at the advanced age of 82 years. On the 9th inst. Wm. H. Seward, a leading statesman of this country, died at his residence, Auburn, N. Y. He has filled some of the most important posts of honor in our country. Saturday's papers informed us of the death of Fanny Fern, a woman of New York who had attained extraordinary distinction as a literary and reformatory writer. Her productions have been read everywhere, and admired by all.

If the cause of temperance is to be promoted by political action—and that will come some day—it must be managed better than it was in the late canvass in this district. If Mr. Brown was the ostensible candidate of that excellent cause the effect proved a miserable failure. Could a consistent prohibitionest vote for him? This idea may be an error, but it looks that way very much. Let prohibitionists have a square out independent ticket, then temperance voters will know just what they are voting for. But the way the temperance strength was scattered at the late election there is no ascertaining, in this district, whether the prohibition cause is advancing or retrograding.

We can't give all the particulars of the elections held in the four states on Tuesday last. As far as can be ascertained in round numbers the results are as follows: Nebraska republican by some 5000 majority; Indiana, Hendricks, democrat, is elected governor by about 800 majority, but the republicans have gained three congressmen, including the beating of Vorhees, have the legislature and all the state officers but governor. Ohio state officers have been elected by some 15,000 majority, and Pennsylvania has done the same thing by some 32,000 majority. The same day the District of Columbia was carried by the republicans. That tidal wave is surging about very mischievously.

The National Catholic Temperance Association met at Cleveland on Thursday, and was attended by a large number of distinguished men of that faith. This organization is doing a good work, for it appeals to the religious sentiment of their people, and that motive wields a vast influence.

It is by no common rule of simple arithmetic that the Tribune cyphers out a Greeley victory in the nation because Indiana has elected Hendricks for governor. Nothing less than fluxions or some of the highest branches of mathematics will bring out such a result, even theoretically—practically, the rule of sinple addition will elect Grant—there will be no mystery about that.

November 28 has been appointed thanksgiving day by the president of the United States.

A democratic circular issued by the Ohio state committee frantically says, that four-fifths of the democrats who remained at home on election day will vote for Greeley, November 5th will be very apt to put a settler to that assumption. The wish won't be father to success.

Hendricks has a majority for governor of Indiana of 849. Saxton, republican candidate for lieut-governor was chosen by 1,313. Hendricks is more popular with the Hoosiers than Horace Greeley.

Of the twenty congressmen elected in Ohio we are informed there is not a single liberal, or sorehead chosen. Perhaps they have not fared better elsewhere.

It is thought the town of Orrville was fired by incendiaries.

According to statements in the papers it appears that in many places the Greeley clubs are disbanding, especially since the elections last Tuesday. They are wise in so doing.

In many places the republicans have been holding grand jolifications since the 8th inst. One took place on Friday at Ravenna, and another at Salem.

According to the Greeleycrat papers, of which the N Y Tribune is chief, all the elections of last Tuesday which was not carried by them, succeeded by fraud. Having so much Tammany in their own party they seem to think all creation is Tammany.

Last Saturday's Leetonia Reporter tells of another man who was drunk, slept with his head on the railroad track, last Thursday night, and he was found in pieces next morning. Incidents of that kind are so common as to excite little public attention. Nobody responsible—of course.

The N. Y. Evening Post says: 'The adherents of Gen. Grant form a powerful, consistent, well trained army, with glorious historical associations that no amount of white hat waving will defeat.'

The next congress is secured for the republicans. We shall have a larger majority than in the present house. Should Greeley be elected he can only make mischief by stirring up such a war between the executive and legislative departments, as disturbed the country under Johnson. This is a powerful argument to liberal republicans to vote for Grant and give up their crusade with the democracy, which has already been shown fruitless, and if pursued further and successfully, can only result in arraying Congress and the president against each other to the public injury.

BEER AT THE FAIR.

Now, Mr. Editor, I protest against such a course,—not to say insult to the farmers of the Tuscarawas Valley—to invite and encourage beer drinking at an Agricultural exhibition. I notice that the managers have given public notice to receive bids for a stand to sell beer and ale; every one knows that the beer now sold is little better than forty rod rotgut whisky, and that in proportion as it is less deadly in its immediate effects, it is only a better inducement by which our young people may be decoyed into the snare of the devil and started on a downward course. I protest,

A. BOWMAN,

October 14th, 1872.

The population of Georgia, according to the census of 1870, was 638,926 white and 545,142 colored. Assuming as a basis of calculation that every fifth person is a voter, this would give 137,785 white and 109,028 colored voters, being a white majority of 18,757. It is admitted on all hands that the colored vote is solid against the democracy, and yet the Democratic majority in the late election was over 50,000. How is this?

A comparison of the population and vote of thirty-six counties having a preponderance of colored population gives this result: Total white population 173,411; total colored population 282,085; excess of colored 108,674. This, assuming every fifth person a voter, would give a colored majority on the full vote of 21,734. In these thirty-six colored counties the democrats had a reported majority of 18,142.

Now taking twenty seven counties with a white majority of population we find this; white population 181,172; colored population 102,912; excess of whites 78,260. This should give a white majority on full vote of 15,652. The democratic majority was but 12,162.

The lesson of this is palpable. The colored people side with the republicans, and the majority of the whites, probably, are with the democrats. In the white counties the democrats obtained what would be a fair average majority supposing the vote to be divided shapely according to color. In the colored counties the Democratic majority was very heavy because the colored voters were driven from the polls. The evidence of the statistics we have given is irresistable, and fully confirms all that has been said concerning the unfairness of the election.

The American stock Journal for October, contains a number of well written articles of great interest to the farmer and stock raiser. Illustrated with engravings of model stable, short horn cow, Berkshire hog, Percheron horse, feed steamers, wild animals, fowls pigeons, birds, &c. Every family should send for a free specimen copy; or $1 00 for 1873, and get 3 numbers of this year free. Address, N. P. Boyer & Co. Parkesburg, Pa.

H. Altekruse, councilman of the second ward, we are informed, has resigned. It is probable an election will be held to fill the vacancy. For some reason we have published no proceedings of council the last few weeks—we presume because no council meetings were held.

A Kentucky girl 'don't 'low no fellers 'round her what ha'n't rid in the keers."

Give work rather than alms to the poor. The former drives out indolence, the latter industry.

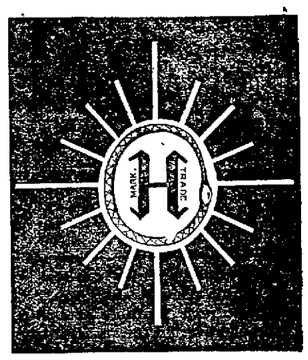
Holloway's



EXPECTORANT

The Latest
VICTORY OF MEDICAL SCIENCE.

The only existing remedy for every species of acute or chronic disease of the organs of respiration, and an absolute

SPECIFIC FOR CONSUMPTION!

This all-powerful vegetable preparation expels from the lungs and air passages, the mucus and muco pus, produced by pulmonary inflamation, heals the irritated membrane and renovates every organ which utilizes the breath of life. It contains no stupefying poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

ANNIHILATES A COUGH

is astonishing. Its effects go deeper than the mere symptoms of pulmonary disease and discharges the cause from the system. Free and painless expectoration is the mode by which it relieves the lungs, chest and throat from the burdens which oppress them, thus arresting consumption and bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer

BATTLING FOR LIFE

with the most terrible scourge of our climate will find the expectorant a potent ally, and will assuredly win the fight by adhering strictly to this balsamic medicine. The

CASES NOW ON RECORD

in which it has been administered with entire success as a remedy for every variety of malady which affects the respiratory functions, amount to more than

FIVE THOUSAND

at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all expectorants hitherto introduced is that they are simply expulsory. Hence they are useless; for unless the causes of the acrid secretions which are coughed up, are removed, and the ruptured, inflamed or macerated surfaces healed and restored to their natural tone, a cure is impossible.

HOLLOWAY'S EXPECTORANT

accomplishes these objects. The mucus and muco-pus which are the consequences of lung disease, is thrown off by it, while at the same time it soothes and invigorates the weakened tissues. As a

STERLING REMEDY

for coughs, colds, influenza, bronchial difficulties, dullness of the chest, hoarseness, sore throat, inactivity, inflammation of the lungs, difficulty of breathing, pleurisy and all disorders of a pulmonary nature, it has never been equaled.

For sale by all druggists at $1 per bottle, and at the office of the

NEW YORK CHEMICAL COMPANY,
78 Maiden Lane,

Sole agents for Holloway & Co's Medicines in the United States. Send for circular.

CAUTION.—All genuine Holloway Medicines have the above trade mark in each book of directions, around the medicines. This can be observed by holding the page up to the light.—485 1y-cow.

The Great Cause
Of Human Misery.

Just published, in a sealed envelope. Price six cents. A lecture on the nature, treatment and radical cure of spermatorhœa, or seminal weakness, involuntary seminal losses, impotency, physical and mental incapacity, impediments to marriage, etc; also consumption, epilepsy and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's Marriage Guide. Price 25 cents. Address the publishers,

Ayer's
Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured and long which the catarrhal discharge generally proceeds. The want of success in treating catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. Thus obstacle in the way of effecting a cure is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight into the nostril, forcing or pumping being required, up one nostril in a full gently flowing stream to the highest portion of the nasal passages, passes into and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the opposite nostril. Its use is pleasant and so simple that a child could understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "**Cold in the Head**" by a few applications.

Symptoms of Catarrh. Frequent headache, discharge falling into throat sometimes profuse, watery, thick mucus, purulent, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stopping up or obstruction of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, &c. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, **$500 reward** for a case he cannot cure. The Remedy is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents. Douche at 60 cents, by **all Druggists**, or either will be mailed by proprietor on receipt of 60 cents.

THE "LIGHT RUNNING" "DOMESTIC"

As a Family SEWING MACHINE challenge *ANY AND ALL* other Sewing Machines in lightness and quietness of running; in simplicity of construction and ease of management, in the

Perfection of its Tension,
in its wonderful power, and in its
Great Durability,

It will sew with three hundred cotton, and without moving its tension will sew forty linen. A feat which can be successfully accomplished on no other machine. It is not only the best family and tailoring machine, but is well adapted to sewing leather. Its range of work is much greater than any other machine, as can be proven by the great variety of work which it is successfully accomplishing in the different shops and families in this city. Although but recently introduced it meets with greater sales than any other machine.

We continue to sell the celebrated
American Sewing Machines,
with their very recent improvements. Also the new American No 2, which is adapted to both family and shop work. We have not only the best machine, but the greatest variety of styles ever offered in this market. They are insured as long as any other responsible agent dare insure his. We sell attachments, needles and oil.

These machines may be seen at John Lowe's Sewing Machine Depot, second floor, opera block, Massillon, Ohio Call and see them. [470m6] GRAY BROS.

OLD THINGS HAVE PASSED AWAY.

This is at least true of the old method of treating the long abused and much abused human body. It is no longer considered wise to put a patient to torture in order to cure him of a disease in which pain is already undermining the energies of his system. True science ranges itself on the side of nature and endeavors to assist her in her fight against disease. This is the province of Hostetter's Stomach Bitters, the most approved tonic ever advertised in this country. It may be recommended as a full medicine, par excellence, for it is in the fall that biliousness, dyspepsia and malarious fevers are especially prevalent. The frame exhausted by the heats of summer, is relaxed and feeble at its close, and requires, we may say demands, artificial assistance. Afford it that assistance in occasional doses of Hostetter's Bitters, and the evils referred to may be escaped. The upbuilt of the far west, and on the steaming alluvial of the southern rivers, all the varieties of periodical fever are probably rife to day. Had a course of Hostetter's Bitters been commenced by the sufferers a month ago, i. e., before the unhealthy season set in, seven eighths of them would in all probability be in their usual health at the present time. So much for want of forecaste. So much for not keeping in the house, and using daily, the best safeguard against epidemic and epidemic fevers.

As flocks of imposters and imitators are trying to follow in the wake of the great American remedy, therefore be sure that the article you buy is genuine and verified by the proper trade marks. The true article can only be obtained in bottles. Beware of the spurious bitters sold by the gallon or in keg.

This Cut illustrates the manner of Using
DR. PIERCE'S
Fountain Nasal Injector,
OR
DOUCHE.

This instrument is especially designed for the perfect application of
DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. Thus obstacle in the way of effecting a cure is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight into the nostril, forcing or pumping being required, up one nostril in a full gently flowing stream to the highest portion of the nasal passages, passes into and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the opposite nostril. Its use is pleasant and so simple that a child could understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "**Cold in the Head**" by a few applications.

Symptoms of Catarrh. Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stopping up or obstruction of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, &c. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, **$500 reward** for a case he cannot cure. The Remedy is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents. Douche at 60 cents, by **all Druggists**, or either will be mailed by proprietor on receipt of 60 cents.

CAUTION.—Every genuine box of Dr. McLane's Liver Pills bears the signature of Flemming Bro's., Pittsburgh Pa., and their private United States Stamp. Take no other. The market is full of imitations.457-6m

The American Odd Fellow for October is on our table. Its contents are varied and interesting, and even the uninitiated may read them with pleasure and profit. Among its attractive features we notice several finely illustrated articles: Lemons in Florida; Diving for pearls; All about Petroleum; Brick Making; Trapping and Furs, etc. There are also interesting stories, sketches of travel, choice miscellany, excellent poetry, extensive correspondence, full proceedings of the Grand Lodge of the United States. We commend this admirable monthly to our readers. Send subscription to S A Law Post, Box 4217, New York city. $2,50 a year.

Paul Pferdner, music publisher of Reading Pa., in a circular sent us proposes to send a copy of Leanone Waltz to any one forwarding him a three cent stamp.

Five more premiums to the Weed Family Favorite sewing machine, at Orrville T. B. Berder, agent, Massillon.

Hay has been selling in this vicinity for $16 50 a tun. Seems pretty high for the season.

A synod of Presbyterian ministers commenced its sessions at Canton last week Two of them preached at the Presbyterian church on Sunday.

Parties wishing nice ruffling, puffing, cording, quilting, hemming, &c., should go to the Singer Agency. 5w

Russell & Co have taken their portable steam engine to the fair, and it will be in active operation, so as to propel any machinery requiring its services. Our people generally manifest a disposition to aid in giving efficency to the fair by taking goods machinery, and a great variety of other products. The stock feature, especially the horses, will engross the attention of every body, for the number of entries in this respect is unprecedented. Cattle, sheep, swine, poultry and a hundred mere objects we can't enumerate will add to the attractiveness of the exhibition.

Thomas Blackburn, Esq offers for sale at his late residence, near Massillon, on the Wooster road, Saturday the 26th inst, household goods and other articles. John Collier, living on the road from Fulton to Lawrence, will sell stock, farm utensils, &c, on the 26th inst.

If you have a Singer, Wheeler & Wilson, Howe, Grover & Baker, Weed, Wilcox & Gibbs, or an American Sewing Machine, call at the Singer Agency for your needles attachments, oil and findings. Machines repaired and adjusted.

5w185 E. D. CHIDESTER, Agent.

The party which was so handsomely beaten last Tuesday at the election propose to do the work in November. The Tribune is full of that sort of gasconade. Elections don't go backward.

From all indications the fair at the Driving Park promises to be a most successful one. If the weather is not too capricious vast numbers of people and a fine exhibition will greet the eyes of all who go to see and participate. None need be hungry there, as our soldier boys have plenty of provisions, warm or cold, in variety to suit every taste. Be sure to give them a call.

Very few weeks ago we were oppressed with extremely hot weather—the mercury reaching up in the nineties. Now we have frosty mornings, and during the dayshivering winds. The fall of the leaf can now be appropriately read and sung—if anybody likes to sing about it. But little rain has fallen here for several weeks—and it is so generally.

Early on Monday evening there was a fine display of red aurioral light. The light of the moon, or some other cause rendered its duration brief.

Mr. McCoy, probate judge of Carrollton, and for many years editor of the Free Press of that place, made us a visit on Monday. Politically little Carroll is all right.

Now is the time to work for that rolling mill. We hope that all our capitalists, who can do so, will take an active part in its favor. The opportunity for the realization of such a much desired improvement should by all means not be allowed to pass unimproved.

Last week we had something to say in regard to the rolling mill project, a movement which has for sometime been agitated in our community. An organization has been formed, consisting of a number of Pittsburgh iron makers and active business men of the city, which is somewhat advanced in shape, though probably not fully matured in its details, with the intention of erecting a rolling mill here, after certain conditions are complied with. A meeting was held on last Wednesday evening, at Madison Hall, which was attended by a considerable number of our citizens, the object of which was to make arrangements to raise means whereby to secure a location on which to erect such a manufactory as is contemplated. James Bayliss was chosen chairman and Jas. H. Hunt, secretary. Anson Pease, Esq, was called upon to state the object of the meeting, which he did in very appropriate and well timed suggestions. His remarks and statments seemed to strike the audience quite favorably, and a disposition manifested to carry out the proposed project. Land for the location of the proposed works can be had at the junction of the two railroads in West Massillon. The object of the meeting was to secure means by contributions from our citizens to purchase this land—some 15 or 20 acres—and give it to the company, when they will immediatly go on with the work of erecting the needed buildings, and procuring the requsite machinery. A committee was appointed to see that this measure was promptly carried out, and we presume the members are successfully at work. The means required don't amount to a great sum, especially in a community such as ours, blessed, as it is, with an abundance of wealth. To erect the needed buildings and procure the requisite machinery is an undertaking involving heavy expense, and the company is prepared for this, and will meet it all if they are aided, as is most reasonably asked, by the citizens securing a site. Experienced gentlemen are here from Pittsburgh, who have been canvassing this project for some time, and they see the manifest advantages to be derived from works of the kind proposed, to be erected here. Nature and art conspire to make Massillon a point for successful manufacturing. Lake Superior ore is now extensively used at a great number of furnaces and the means of conveying it hither by water is a vast advantage in the matter of freight. As to the other ores, limestone, and coal, they abound here in vast quantities. Seeing these advantages, the company already formed, part of them iron men of Pittsburgh, and the others among the most active, enterprising of our business men, every one who has the welfare and prosperity of the city at heart cannot do better than immediately respond in aiding to furnish means for the purchase of land for that purpose.

As early as last Saturday quite a number of distinguished horses were here—all together something like 75 in number—in order to take part in competing for the big prizes offered at the fair this week. If the weather is at all favorable we may look out for a big crowd of people.

Rates of Taxation in Stark County, Ohio, for the year 1872.

TREASURER'S OFFICE.

In conformity to law, I hereby notify the Tax Payers of Stark county that the table herein is a correct exhibit of the amount of tax levied on each dollar's valuation of the taxible property of said county as charged on the tax duplicate for the year 1872

SPECIAL TAX — District No 7, Nimishillen Township, 10 mills.
" " Paris " 3 "

The treasurers office will be open between the hours of 7 a m, and 4 p m from the 1st day of October to the 20 h day of December, 1872; and from the 1st day of April to the 20th day of June 1873, for the purpose of the receiving taxes charged on the tax duplicate for the year 1872.

The treasurer desires to say that while the tax payers will be given every opportunity to pay their taxes, yet they are notified that we must close the office at 4 p m to enable the treasurer to close his accounts, also that there has, through the leniency of the treasurer of this county, been a custom, obtained among many, of not paying their taxes till some time after the 20th of December and June, respectively. This must be changed, because the time is limited by law in which the treasurer and auditor are required to make their settlements with the state and pay over the moneys to the proper authorities. The Delinquent List will therefore be put into the hands of the collectors immediately after the 20th of December, and collected according to the following section of April 2d, 1872.

Section 4—When one half the taxes as aforesaid, charged against any entry on a tax duplicate in the hands of a county treasurer, shall not be paid on or before the 20th day of December next after the same shall have been so charged, or when the remainder of such taxes shall not be paid on or before the 20th day of June next thereafter, the county treasurer shall proceed to collect the same by distress or otherwise, as may at the time be prescribed by law, together with the penalty of five per centum on the amount of taxes so delinquent; and in all cases where such half of any taxes, other than on real estate, shall not have been paid on the 20th day of December, the whole amount of taxes, other than real estate, for the current year, so charged, shall be due and delinquent, and shall be collected in the manner and with the penalty provided in this section.

IRA M. ALLEN, Treasurer.

Treasurer's Office, Stark County, Ohio, Sept 30, 1872.—485td

It is perhaps not too late to make a note of the very pleasant reunion—the fifth—of one hundred and seventy five of the veterans of the 104th O. V. I., at Wellsville, on the 1st inst. The Union of that place of the 3d inst, gives a very interesting account of the success of the demonstration, from which we compile a few items of more or less interest. The people of the valley city were united and enthusiastic in bidding their visitors an earnest welcome, by doing all they could to make it a success After marching along several of the streets, preceded by Marble's celebrated (Akron) band, the procession, and many others, convened in the Presbyterian church, which was filled to overflowing. Several addresses were delivered prominent among which was that Col. W J Jordan, of New Lisbon, was appointed to perform that duty at the reunion in this place many months ago. Routine business occupied sometime, and the following officers were elected for the coming year; secretary, C. B. Dickey; treasurer, C. M. McLain; orator, Sargeant Jackson. The meeting was enjoyed by all who participated, and will long be remembered as one of the pleasantest reunions which the soldier boys have experienced—and may they have many more such! It is good for the soldiers to come together once in a while, and have a good time of shaking hands and continuing friendships.

We are visited with high winds these days and it will be well for all having charge of fires to be very careful, as this element is very ungovernable if stimulated by too much fresh air.

Our Rep & Rep neighbors, Canton, have their whole coop of chanticlers out, crowing over the elections, while the Big Dem exhibits his little popgun over Georgia.

On Friday evening last a fire broke at Orrville, commencing at a stable, and its destructive course was not arrested until something like a dozen buildings were laid in ashes. Report says it consumed one of the best squares in the place. Friday happened to be the last day of the fair, at that place—which was largely attended—and a great number of people were present. Massillon was well represented there, and among others present was Edwin Bayliss, proprietor of the Excelsior Works, who seeing that Orrville had no water works or machinery with which to contend against a fire, telegraphed to this place for the fire companies to go there with their engine and hose. Two of the companies responded by taking a train and reached the scene of disaster in time to aid somewhat in quenching the fire. The principal part of destruction was consummated before our firemen could possibly reach the town, but they were enabled to render efficient aid in this hour of need. What is the estimated amount of loss we have not yet ascertained, but it must reach many thousands of dollars, and it will require time to repair and rebuild the waste place. The night, although a calm one was cold and unpleasant—a very disagreeable time for families to be turned out without shelter and homes, and perhaps but scant supplies of clothing to protect women and children from the chilly air. No doubt such were provided for temporarily as well as circumstances would permit.

Sunday before election is always a busy day among politicians. It has been ascertained that there was a conclave of democratic editors of this district at Youngstown on that day, concocting mischief. Their plans were handsomely frustrated by our friends telegraphing all over the district, warning republicans to look out for fraud. The Register, at Youngstown, of last week, has an expose of the trick, which the accused try to deny. But one of their circulars was seen and read by a man in Columbiana county. Its aim was to prevent Wood vorth's election by circulating gross roorbacks, but forewarned was forearmed and the thing proved a flash in the pan, leaving nothing but the smell of wasted powder.

The teachers' institute for Stark county is held at Waynesburg, commencing on Monday last, and will continue probably most of the week. Would it not be better to have those meetings at more accessible places? It is a long distance for teachers to go from the north part of the county to Waynesburg.

Right at home where both Brown and Woodworth live the latter received 77 majority, in spite of the most extraordinary efforts to the contrary.

A steam engine for the purpose of propelling machinery is on the ground, taken there, we understand, by the Excelsior Works, which will be a marked feature of the exhibition.

Mr. Woodworth has received, as far as at present known, the following majorities in the four counties comprising this congressional district:

Stark	304
Mahoning	384
Carroll	400
Columbiana	1500—2588

Enough to elect him without any prospect of a contested election. The official vote may change the result, but not enough to jeopardize the election of Mr. Woodworth.

Perry township, Columbiana county where it was claimed there were more than 150 turncoat republicans, the vote for Brown was 258, Woodworth 681—majority 423.

Lexington township, this county, in which extraordinary efforts were made in behalf of Mr Brown, the vote for him was 366, Woodworth 854—488, nearly 500 majority.

Col. E. D. Briggs, formerly of this city died recently at St. Louis.

Just about enough snow fell last Sunday to give an idea of the color of the article—the first here of the season.

WANTED.—Four fire days for the Tuscarawas Valley Fair, which began yesterday. It is surprising to see the amount of work done on the grounds in the way of building during the few last days.

The new railroad has recently put up a water tank between Main and Tremont streets, which is supplied from our water works. Main street is nearly finished on the new grade west of the railroad.

An Army of Students.—Upwards of seventeen thousand different students have attended the Iron City College, Pittsburgh, since 1855. No other business college in the country can show such a record.

During the pleasant entertainment, given by Alf Burnett and his assistants, on last Friday evening, the cry of fire and the clang of fire bells caused considerable commotion in the audience for a few minutes; but when it was announced that it was at Orrville order was soon restored, and the audience became quiet. As quiet as people could be expected when they came to laugh and applaud the specialities of one who is master of his profession. Although following the profession for many years, and of course becoming older, Mr. B seems not to have lost any of his vivacity and skill, especially in transforming from one character to another, and fulfilling every part with a completeness rarely equalled.

Many of our citizens may remember that some weeks ago a strange street preacher came here, and during a brief stay unburdened himself by delivering one or two discourses to all who chose to hear. Afterward his name was ascertained to be a Rev. Ramsey, whose mind had become somewhat erratic. During the month of August he was taken sick, and lingered along until some time in September, when he died.

The rapidly shortening days and increasing length of nights very decidedly indicates colder weather than we have had. So much so that coal is in demand. Our coal dealers are prepared to supply all demands O. J. Hardgrove has gone into the business, and will promptly supply customers.

In coming home from Fulton on Monday evening, the 7th inst, in a buggy it is said the riders got in the spirit of passing each other. In making an attempt of this kind Mr Oliver Jacobs of this place was thrown from a buggy by which accident he had one of his legs broken, but fortunately sustained no other serious injury. He is getting along quite as well as could be expected.

On the 8th inst the evening train westward bound when some 6 or 7 miles east of Alliance unfortunately lost two or three cars, which became detached from the train. In backing down to attach to the lost cars, the platform of the two that came together were damaged, but no other injury was sustained. The accident put the train several hours behind time.

This (Wednesday) morning opens most favorably for the fair, and everything looks favorable for a large attendance, and a commendable interest in its results. The capacious hall is not large enough for exhibitors, so additions are put up.

PLANTATION BITTERS.

S. T.—1860—X.

This wonderful vegetable restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics As a remedy for the nervous weakness to which women were especially subject, it is superceding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermine sthe bodily strength and breaks down the animal spirits. 444-1y

LYON'S KATHAIRON,

For Preserving and Beautifying the Human Hair. To Prevent its Falling Out and Turning Gray.

A well preserved head of hair in a persons of middle age, at once bespeaks refinement, elegance, health and beauty. It may truly be called woman's crowning glory, while men are not insensible to its advantages and charms. Few things are more disgusting than thin, frizzly, harsh, untamed hair, with head and coat covered with dandruff. Visit a barber and you look and feel like a new man. This is what Lyon's Kathairon will do all the time. The charm which lies in well placed hair, glossy curls, luxuriant tresses, and a clean head, is noticeable and irresistable. Sold by all druggists and country stores no2—446-1y.

THE NEW FAMILY

SINGER SEWING MACHINE

The undersigned has opened rooms for the sale of this celebrated Sewing Machine, three doors north from McLain, Dangler & Co's store, Erie street, Massillon, O., where he intends to keep on hand a full assortment of Sewing Machines, needles, attachments, and findings for all machines. Silks and threads of best quality.

This **NEW FAMILY MACHINE** is capable of a range and variety of work such as was thought impossible to perform by machinery. We claim and can show that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all family sewing machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the interlocked elastic-stitch, alike on both sides of the fabric sewn. Thus, beaver cloth, or leather, may be sewn with great strength and uniformity of stich; and, in a moment, this willing and never wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of fariatan, or ruffling, or almost any other work which delicate fingers have been known to perform.

Purchasers wishing to buy a machine are requsted to call and examine our prices &c., before purchasing elsewhere.

460—6m E. D. CHIDESTER, Agent-Massillon, O. April 2d., 1872.

VINEGAR BITTERS

VINEGAR BITTERS

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

They are a gentle Purgative as well as a Tonic, possessing the merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

DR. CARPENTER,
136 Mulberry street, Newark, N. J.,

Is now treating successfully CONSUMPTION, BRONCHITIS, and all diseases of the Throat and Lungs, with his *Compound Medicated Inhalations, Concentrated Food and Cough Syrup.*

During the past ten years Dr. Carpenter has treated and cured thousands of cases of the above named diseases, and has now in his possession certificates of cures from every part of the country. The inhalation is breathed directly into the lungs, soothing and healing over all inflamed surfaces, entering into the blood, it imparts vitality as it permeates to every part of the system. The sensation is not unpleasant, and the first inhalation often gives very decided relief, particularly when there is much difficulty of breathing. Under the influence of my remedies, the cough soon grows easier, the night sweats cease, the hectic flush vanishes, and with improving digestion the patient rapidly gains strength, and health is again within his grasp.

The concentrated food rapidly builds up the most debilitated patient, presenting to the stomach food all ready to be assimilated and made into good, rich, healthy blood

The cough syrup is to be taken at night to alleviate the cough and enable the patient to obtain sleep. Full directions accompany each box of my remedies, which consists of

One Inhaler, one bottle of Alterative Inhalant, one bottle of Soothing Febrifuge Inhalant, one bottle of Anti-Hemorragic Inhalant, one bottle of Concentrated Food, and one bottle Cough Syrup.

Price of box containing remedies to last one month, $10; two months 18 three months 25.

Sent to any address C O D. Pamphlets containing large list of patients cured sent free. Letters of inquiry must contain one dollar to insure answer. Address,

A H CARPENTER, Newark, N. J.

Dr Carpenter's Catarrh Remedy will give immediate relief, and will effect a permanent cure in from one to three months. Price of remedy to last one month $5; two months, 8; three months, 10.

Cancer in all its forms successfully treated. Send for list of patients cured, to

A. H CARPENTER, M. D.,
471y Newark N. J.

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

Who was the straightest man mentioned in the Bible? Joseph—because Pharaoh made a ruler out of him.

We should give as we would receive, cheerfully, quickly, and without hesitation; for there is no grace in a benefit that sticks to the fingers.

A stranger meeting a man in the streets of Boston, a short time since, roughly accosted him with, 'Here, I want to go to the Tremont House?' the deliberate reply was, 'Well you can go, if you won't be gone long.'

It was yesterday we asked an acquaintance who had a box of cigars in his hand, what he had got. He replied they were tickets to a course of lectures to be delivered by his wife.

Is not Horace Greeley a college-bred man? asks a correspondent. No, sir; he is a Graham bread man.

An Indiana editor says: 'We leave to-morrow for the county hog show, and hope to take the first prize.'

In Chicago, the other morning a young man named Phœnix arose from the hashes of the Briggs House.

Josh Billings says: 'When you strike a stop boring; menny a man has red clean thru, and let all the ile run out at the bottom.'

It is wonderful what folly love will lead some men into. An exchange says Lima, N. Y., is the town rendered forever famous by a man eloping with his mother-in-law.

To be happy, the passion must be cheerful and gay, not gloomy and melancholy. A propensity to hope and joy is real riches; one to fear and sorrow, real poverty.

An ambitious citizen of Rome, Ga., endeavored to eat three quarts of raw oysters recently. A local paper says it was a way he had of signing an agreement to slumber in the valley."

At a colored meeting, a worthy brother, whose piety exceeded his learning, rather astonished his hearers by quoting, during an exhortation, from de pistle ob St Paul to de Canadians.'

The following notice, printed on colored cardboard with a nice border, hangs up in a place of business in Rome, N. Y.: 'Mebbe you don't better had loaf rount here ven you don t got some peesnis, ain't it?'

A minister took for his text: 'The flesh, the world and the devil,' and informed his astonished audience that he should dwell briefly on the flesh, pass rapidly over the world, and hasten as fast as he could to the devil.'

Mr. Lincoln used to tell a story of a boy who was ordered by his father to scare a stray urchin off the premises. He departed on his mission with a turkey gobbler strut, and shortly returned with a discolored optic, bleeding nose, and very much demoralized, and told his father the darn'd boy didn't scare worth a cent.

Died Suddenly of Heart Disease—How common is the announcement. Thousands are suddenly swept into eternity by this fatal malady. This disease generally has its origin in impure blood filled with irritating poisonous materials, which circulating through the heart, irritate its delicate tissues. Though the irritation may at first be only slight, producing a slight palpitation or irregular action, yet by and by the disease becomes firmly seated, and inflamation or hypertrophy, or thickening of the lining membrane or of the valves, is produced. How wise to give early attention to a case of this kind. Unnatural throbbing or pain in the region of the heart should admonish one that all is not right, and if you would preserve it from further disease, you must help it to beat rightly by the use of such a remedy as shall remove the cause of the trouble. Use Dr Pierce's Golden Medical Discovery before the disease has become too seated, and it will, by its great blood purifying and wonderful regulating properties, effect a perfect cure. It contains in chemical properties which act specially upon the tissues of the heart, bringing about a healthy action. Sold by all first class druggists.

Dubious Diseases—For years, we might almost say centuries, consumption has been classed among the diseases of doubtful cure, consequently people, when they have supposed it to exist, have abandoned all hope of staying its progress, and have allowed its victims to suffer on, until death gathered them into its vortex. Not so now. Dr Keyser, with Dr. Keyser's Lung Cure, has established the truth, that consumption, like any other disease, has its remedy. Not one or two sporadic cases, that perhaps would have recovered under the hand of nature alone, but dozens and scores of unhealthy people have been rescued from the grasp of this fell destroyer of the human family, and live to bless Dr. Keyser's Lung Cure to their latest breath. So much is this the case that there is hardly a family on whose mantel piece may not be seen the famous bottle bearing this inscription: "Dr. Keyser's Lung Cure, or Pulmonary Restorative," a name significant enough, and before the contents of which incipient pulmonary maladies vanish like noxious mists before the morning sun. Dr. Keyser's Lung Cure is a health giving elixir, which none who ever used it can deem of dubious value. It can be had at the doctor's great medicine Store, 167 Liberty street, Pittsburgh $1.50 per bottle; four for $5.00. Dr Keyser's private consulting office in the rear of his store, from 10 a m to 6 p m.

Holloway's Pills and Ointment are the only medicinal preparations necessary in families. The Pills regulate all the internal organs with unerring certainty; the Ointment is a positive antidote to all external diseases. Sold 78 Maiden Lane, N Y. Price, 25 cents per pot or box. Ask for new style; the old is counterfeited.

Beautiful Women.—The hair is the crowning glory of woman. There are few moderated defects which cannot be remedied by the proper disposition of the tresses. But when the hair begins to fall out, or turn gray, in young people, or with those in the prime of life, there is cause for real regret. When this is the case, Hall's Vegetable Sicilian Hair Renewer will be found to be a first class remedy, far superior, as a sound medical medium, to anything else before the public. It actually restores gray hair to its original color, and in the great majority of cases, causes it to grow again when it is becoming thin. It is not like many popular preparations, a mere wash, but a scientific discovery, indorsed and used by physicians of character. Address R. P. Hall & Co., Nashua, N. H.

Darchey & Co's new advertisement

DON'T

Be deceived, but for coughs, colds, sore throat, horseness and broncial difficulties, use only

Dr Well's Carbolic Tablets.

Worthless imitations are on the market, but the only scientific preparation of carbolic acid for lung diseases is when chemically combined with other well known remedies, as in these tablets, and all parties are cautioned against using any other

In all cases of irritation of the mucus membrane these tablets should be freely used, their cleansing and healing properties are astonishing.

Be warned, never neglect a cold, it is easily cured in its incipient state, when it becomes chronic the cure is exceedingly difficult, use Well's Carbolic Tablets as a specific

EXTRA INDUCEMENTS FOR CLUBS!

SEND FOR NEW CLUB CIRCULAR

Which contains full explanations of premium

THE WAY TO OBTAIN GOODS!

Persons living at a distance from New York, can club together, and get them at the same price as we sell them at our warehouse in New york. In order to get up a club, let each person wishing to join say how much Tea he wants, and select the kind and price from our price list, as published in our circulars. Write the names, kinds and amounts plainly on a list, and when the club is complete send it to us by mail, and we will put each party's goods in separate packages, and mark the name upon them, with the cost, so there need be no confusion in distribution—each party getting exactly what he orders, and no more. The funds to pay for goods ordered can be sent by drafts on New York, Post-office money orders, or by express Or, we will if desired, send the goods by express, to collect on delivery. THE GREAT AMERICAN TEA Co, 31 & 33 Vesey st, New York. P O Box 5643

THE GREAT SOUTH AMERICAN JURUBEBA BLOOD PURIFIER

It is not a panacea which may give temporary relief to the sufferer for the first few doses, but which from continued use brings piles and kindred diseases to aid in weakening the invalid, nor is it a doctored liquor, which, under the popular name of bitters is so extensively palmed off on the public as sovereign remedies, but is a most powerful tonic and alterative, pronounced so by the leading medical authorities of London and Paris, and has been long used by the regular physicians of other countries with wonderful remedial results.

Dr Wells' Extract of Jurubeba

retains all the medicinal virtues peculiar to the plant and must be taken as a permanent curative agent.

Is there want of action in your liver and spleen? Unless relieved at once, the blood becomes impure by deleterious secretions, producing scrofulous or skin diseases, felons, blotches, pustules, canker, &c.

Take Jurubeba to cleanse, purify and restore the vitiated blood to healthy action

Have you a dyspeptic stomach? Unless digestion is promptly aided the system in debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Have you weakness of the intestines? You are in danger of chronic diaarhœa or the dreadful inflammation of the bowels.

Take it to allay irritation and ward off tendency to inflammations

Have you weakness of the Uterine or urinary organs? You must procure instantly relief or you are liable to suffering worse than death.

Take it to strengthen organic weakness or life becomes a burden.

Finally it should be frequently taken to keep the system in perfect health or you are otherwise in great danger of malarial, miasmatic or contagious diseases.

John Q. Kellogg, Platt s. N. Y. Sole agent for the United tStates. Price one dollar per bottle Send for circular.

Excellent Farming and Splendid

MICHIGAN PINE LANDS for sale,

On which are One Thousand Millions of Pine timber, and Inexhaustable quantities of Maple, Beech, Elm, Ash,

The grant of lands to the Grand Rapids and Indiana Railroad Co., to build their road from Ft. Wayne, Ind., to Traverse Bay and Mackanaw, Mich., comprising in its farming lands every variety of soil, from the rich clay loam, to the light sandy, and they are found in that section of Michigan, north of the city of Grand Rapids, and contiguous to the great fruit belt on the eastern shores of Lake Michigan, now being rapidly developed by railroad and other enterprises.

The Pine Lands are situated on the Muskegon, Manistee, Pere Marquette, White, Pine, Tamrack, Flat and Rouge Rivers, and lying twenty miles on either side of the surveyed line of said road, and are in the heart of the Pine section, from which Chicago is so largely supplied.

Farming Lands are sold to actual settlers, on credit, one quarter down, balance in yearly payments, interest 7 per cent. Persons desirous of locations for farms will on application at the office, in Grand Rapids, be furnished with tickets over the road, entitling them to return fares, in the event of purchasing any of the company's farming

For information about lands, prices, location &c., address WM A HOWARD,
441 9m Land Commissioner,
Title perfect. Grand Rapids, Mich.

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless langnor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

PERRY DAVIS'

PAIN-KILLER

IS THE

BEST FAMILY MEDICINE OF THE AGE!

And why it should be kept always near at hand:

1st Pain killer is the most certain Cholera cure that medical science has produced

2nd Pain killer as a Diarrhœa and Dysentery remedy, seldom if ever fails.

3rd Pain Killer will cure cramps or pains in any part of the system. A single dose usually effects a cure.

4th Pain Killer will cure dyspepsia and indigestion, if used according to directions.

5th Pain-Killer is an almost never failing cure for sudden colds, coughs, &c.

6th Pain-Killer has proved a sovereign remedy for fever and ague, and chill fever; it has cured the most obstinate cases.

7th Pain-Killer as a liniment is unequaled for frost Bites, chilblains, burns, bruises, cuts, sprains, &c.

8th. Pain-Killer has cured cases of rheumatism and neuralgia after years standing.

9th Pain-Killer will destroy boils felons, whitlows, old sores, giving relief from pain after the first application.

10th Pain-Killer cures Headache, and toothache.

11th Pain-Killer will save you days of sickness and many a dollar in time and doctor's bills.

12th Pain-Killer is a purely vegetable preparation, safe to keep and to use in every family. The simplicity attending its use, together with a great variety of diseases that may be entirely eradiated by it, and the great amount of pain and suffering that can be alleviated through its use, making it imperative upon every person to supply themselves with this valuable remedy, and to keep it always near at hand.

The Pain-Killer is now known and appreciated in every quarter of the globe. Physicians recommend it in their practice, while all classes of society have found in it relief and comfort. Give it a trial.

Be sure and buy the genuine. Every druggist, and nearly every country grocery throughout the land keep it for sale.

☞ Directions accompany each bottle.

Price 15 cts, 50 cts, and $1 per bottle.

J. N HARRIS & CO., Cincinnati, Ohio, Proprietors for the Southern and Western States 469—3m

☞ For sale by all Medicine Dealers.

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c, this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

DAVID E. FOUTZ, Proprietor,

BALTIMORE, Md.

DR. AUGUSTUS SLEE

Treats all private diseases with great success Spermatorrhœa, or seminal weakness and impotency, caused by selfabuse, etc—producing General Debility of the body, Indigestion, want of proper Manliness, Loss of Memory, Indolence; reducing the System so as to render Marriage unadvisable—Permently Cured.

Long standing constitutional disease skillfully treated and cured.

Effects of Mercury Eradiated.

The doctor gives particular attention to Female complaints. Sterility, Amenorrhœa, Mennorrhagia, and all such diseases, causing annoyance and interfering with the general health and enjoyment of life, invariably removed.

Send for the doctor's medical pamphlet, treatire, in plain language, on veneral diseases, enabling the afflicted to understand their own complaints. Free at office or sent securely sealed, for six cents.

Ample accomodations for patients from a distance at the house.

Office hours from 9 A. M. to 8 P. M., Sundays excepted. All communications to be addressed DR. AUGUSTUS SLEE,
264 Penn street, Pittsburg, Pa.

DR. WHITTIER

296 Penn St. Pittsburg, Pa

A REGULAR GRADUATE OF MEDICINE, AS DIPLOMA at office will show, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other physician in Pittsburg.

Syphilis, Gonorrhœa, Gleet, Stricture, Orchitis, Hernia or Rupture; all Urinary Diseases and Syphilitic or Mercurial Affections of the Throat, Skin or Bones are treated with unparalleled success.

Spermatorrhœa, Sexual Debility and Impotency, as the results of self-abuse in youth, sexual excesses in maturer years, or other causes, and which produce some of the following effects, as **nocturnal emissions, blotches, debility, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society of females, loss of memory and sexual power rendering marriage improper,** are permanently cured. Sealed pamphlet relating to above sent for two stamps. Call or write, a friendly talk costs nothing. Medicine sent everywhere. It is self evident that a physician who treats thousands of cases every year acquires skill. Country physicians knowing this frequently recommend persons to my care.

MANHOOD! WOMANHOOD!

Who may Marry, who not, why. Send 25 cents. Full symptoms Chronic Diseases, 100 pages securely sealed. Address, Dr. Whittier, 296 Penn Street, Pittsburg, Pa. Ignorance kills more than war and pestilence combined.

FOR SALE!

Now is the time to secure bargains!

Two second hand Buggies, one nearly new, 2 open Buggies, a 2 or 3 seat Carriage, and a Spring Wagon.

The above property can be seen by calling at my Livery Office on Mill street.
457-tf PETER GRIBBLE

MANHOOD:

How Lost How Restored.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of spematorrhea, or seminal weakness, involuntary seminal losses, impotency physical and mental incapacity, impediments to marriage, etc; also consumption, epilepsy and fits, induced by self indulgence or sexual extravagance.

☞ Price in a sealed envelope, 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's Marriage Guide, Price 25 cents. Address the publishers,
459y1 CHAS. J. KLINE & CO.,
P O Box 4,586, 127 Bowery, N Y.
